

Fun and Easy Birthday Parties

It's Party Time!

Our 45 custom designed Xbox 360 and PC gaming stations are networked together. Players join each other in the same game simultaneously, playing competitively or cooperatively.

We have dozens of games suitable for a wide range of ages and our staff will get them playing together in no time. Choose from action, racing, sports, puzzle, strategy games and more.

An Incredible Value!

Each player gets a dedicated station for the entire party. All of their time is spent playing and none is spent waiting to play.

Your party stays on budget. Our party prices are set, so you avoid unwelcome surprises - such as extra tokens or paintballs to buy when your guests run out.

The guest of honor always plays for free and everyone gets a free pass (a \$12 value) to take home.

Relax. We've got this one!

We can do as much or as little as you need to make your party a success. You bring the guests and we'll bring the fun. Need something special? Just ask and we'll work it in for you.

With their own station, every guest is fully engaged for the entire party. With no downtime between activities, your guests won't need constant parental supervision.

Parents can relax within sight of - but away from - the action. Bring your notebook computer, grab a latte and get online while your guests have a great time. Wireless is free!

come play with us

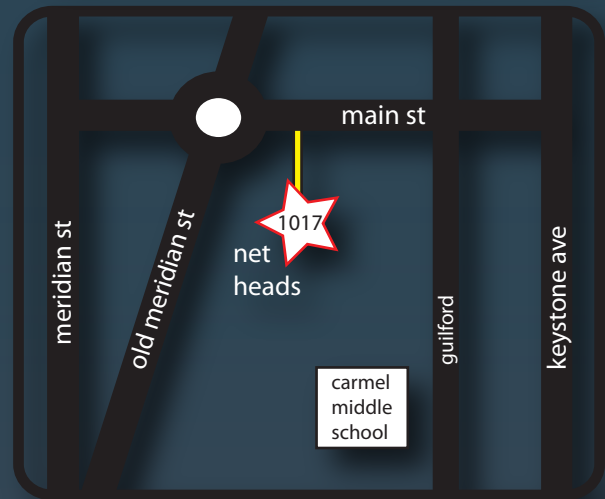

Choose Your Party Package!

For ages 18 and younger, we offer three packages for parties of 8 or more:

- The Newbie
- The Net Head
- The Gamer

Choose the best package for your budget and guests. Want a certain game, type of gaming station or need other special considerations? Just tell us when you make your reservation.

For invitations, party and scheduling tips and pricing on additional items such as cakes, visit us at www.netheads.com.
